

MEDIUM DENSITY FIBREBOARD MDF - FROM CABER, MEDITE, FINSA

INTRODUCTION:-

Our MDF offers a consistency of quality and thickness and is engineered to perform.

PROPERTIES

BOTANICAL NAME

Picea abies (spruce), Pinus sylvestris (pine)

PHYSICAL/STRUCTURAL

EN 622-5; BS EN 120 (E1)

PROPERTIES

TYPICAL APPLICATIONS

Furniture, Shopfitting, Toys and Doors

PURCHASING CYCLE

Scotland, Ireland, Spain

ENVIRONMENTAL

Monthly

CREDENTIALS

FSC / PEFC

STORAGE ADVICE

Transport in uniform stacks on a flat base to avoid damage. Protect against the weather; store on a rigid flat base and adequately ventilated. Insulate from the ground to avoid dampness. When wooden battens are used they shall be of uniform thickness and placed in line. The distance between the battens should be no greater

than 700 - 1000mm

Further technical information see page 164 - 167
